

FREE PREVIEW

10 Free AI Prompts for Small Business Owners

A taste of the AI Small Business Starter Kit — copy-paste-ready prompts you can use in ChatGPT, Claude, or Gemini today, plus a bonus invoice template.

100% FREE — NO CREDIT CARD NEEDED

Your 10 Free Prompts

PROMPT 01 — MARKETING

"Create a 30-day content calendar for **[platform]** for a **[industry]** business, mixing educational, promotional, and behind-the-scenes posts, with a content pillar noted for each day."

Tip: Ask the AI to output it as a table so you can paste it straight into a spreadsheet.

PROMPT 02 — MARKETING

"Write 5 hook variations for a social post about **[topic/offer]** designed to stop someone mid-scroll for a **[target audience]** audience."

Tip: Ask for one "curiosity" hook, one "bold claim" hook, and one "question" hook for variety.

PROMPT 03 — SALES

"Write a cold outreach email to **[target prospect type]** introducing **[offer]**, under 120 words, with one clear CTA."

Tip: Ask for two versions — one leading with a question, one leading with a specific result or stat.

PROMPT 04 — SALES

"Write 3 responses to the objection: '**[insert objection, e.g., it's too expensive]**' that reframe value instead of dropping price."

Tip: Feed it your real pricing and value points so the reframe isn't generic.

PROMPT 05 — CUSTOMER SERVICE

"Write a response template for handling an angry customer complaint about **[issue type]**, acknowledging the issue and offering resolution."

Tip: Ask for a version that avoids admitting legal fault while still sounding genuinely sorry.

PROMPT 06 — OPERATIONS

"Write a step-by-step SOP for **[recurring task, e.g., weekly invoicing]** including tools used and who's responsible."

Tip: Feed it your actual current process, even if messy — it's easier to refine an SOP than write one cold.

PROMPT 07 — STRATEGY

"Act as a business consultant. Review this business idea: **[describe idea]** and identify the 3 biggest risks and how to mitigate them."

Tip: Push back if the AI's risks feel generic — ask "what risk is specific to MY situation?"

PROMPT 08 — FINANCE

"Explain, in plain language, the difference between cash flow and profit using my numbers: **[paste basic figures]**."

Tip: Use your real numbers so the explanation actually clicks.

PROMPT 09 — RESEARCH

"Research and summarize the top 3 trends currently affecting **[industry]** small businesses."

Tip: Ask it to note which trends are short-term hype vs. structural shifts worth planning around.

PROMPT 10 — MARKETING

"Create a customer testimonial request email that gets specific, usable quotes instead of generic 'great service!' responses."

Tip: Include 2-3 guiding questions in the email itself — this is what actually produces specific quotes.

Client Invoice Template

A clean, professional invoice layout you can rebuild in Excel, Google Sheets, or Word — US and EU-ready.

[Your Business Name]

Address | Email | Phone | VAT/Tax ID (EU) or EIN (US)

Invoice #	INV-0001
Invoice Date	[Today's date]
Due Date	[Invoice date + 14 days]
Bill To	[Client Name / Company]

Description	Qty	Unit Price	Line Total
[Service/Product description]	1	\$0.00	\$0.00
TOTAL DUE			\$0.00

Payment terms: Net 14 days. EU version: add your VAT number and the client's VAT number. US version: add EIN if operating as an LLC/Corp.

Like what you see? This is 10% of the full kit.

The complete AI Small Business Starter Kit includes all 100 prompts, a fully formula-driven Excel workbook (income/expense, cash flow, pricing, break-even, invoicing, sales pipeline, content calendar), a 31-page printable Templates & Worksheets Companion, a Notion dashboard system, and a brand-matched Social & Email Design Pack.

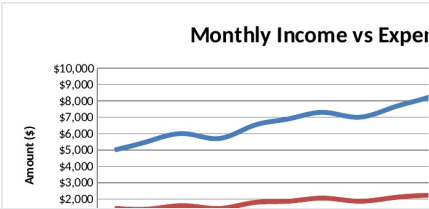

\$79 one-time — yours to keep, no subscription

One-Page Business Plan Canvas

Capture your entire business model on a single page — mission, customer, offer, channels, and 90-day goals.

Mission (1 sentence)

Why does this business exist, beyond making money?

Target Customer

Who exactly are you serving? Be specific.

Core Offer

What do you sell, in one sentence?

Pricing Model

How do you charge — one-time, subscription, tiered?

Primary Channels (how customers find you)

List 2-3 channels max — focus beats breadth

90-Day Goals (top 3)

Each goal should be specific and measurable

One-page business plan canvas worksheet
