Companion to Mirnex Analytics — Power BI Analytics & DAX Master Library

DARK MODE THEME

# Mirnex Corporate Blue

## Live Preview (Power BI)

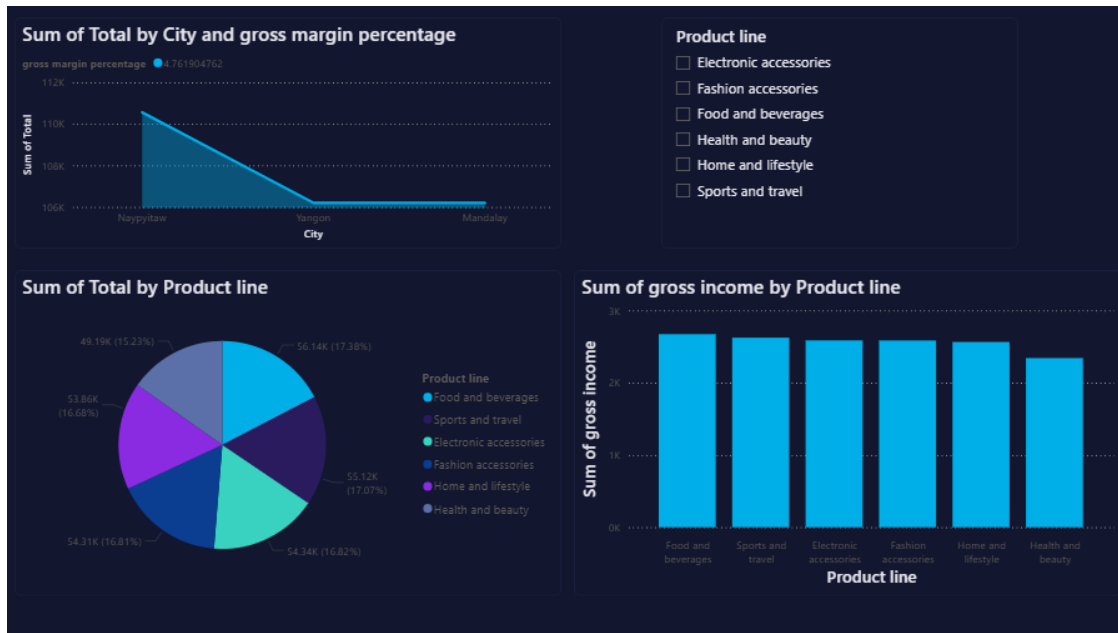

## Data Color Palette

|         |         |         |         |         |         |         |         |
|---------|---------|---------|---------|---------|---------|---------|---------|
| #3B82C4 | #1B3A5C | #6FA8DC | #0E2A47 | #8FB8E0 | #274F7A | #4A6FA5 | #B8CCE4 |
|---------|---------|---------|---------|---------|---------|---------|---------|

**Best Used For:** The safest default for banks, insurers, and large enterprise clients — professional, conservative, universally acceptable in a boardroom.

**JSON File:** Mirnex\_Corporate\_Blue.json (import via View > Themes > Browse for themes)

## Live Preview (Power BI)

## Data Color Palette

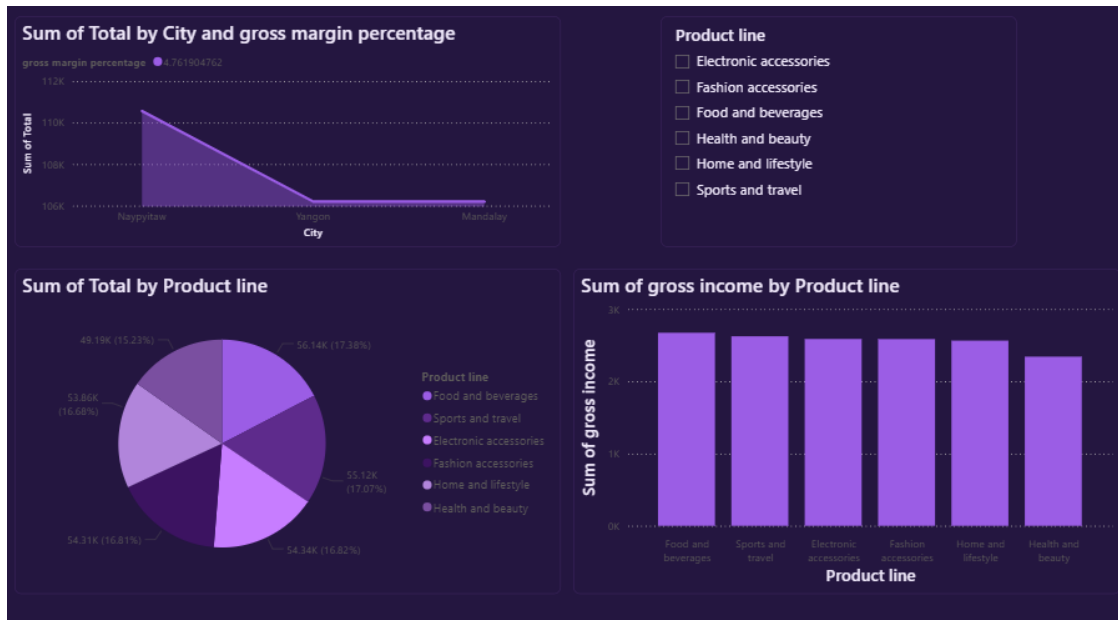

**Best Used For:** The Mirnex flagship look (matches the book cover) — best for premium executive dashboards, C-suite presentations, and portfolio pieces meant to impress.

**JSON File:** Mirnex\_Executive\_Dark.json (import via View > Themes > Browse for themes)

DARK MODE THEME

# Mirnex Modern Purple

## Live Preview (Power BI)

## Data Color Palette

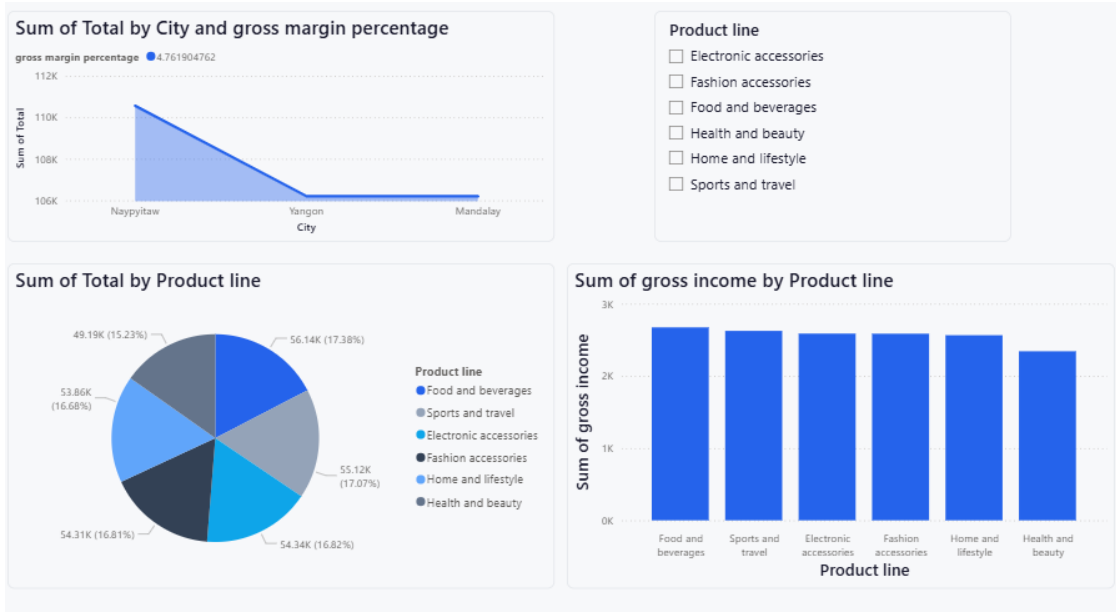

**Best Used For:** Ideal for SaaS, tech, and marketing-focused dashboards wanting a modern, creative, slightly playful feel without sacrificing readability.

**JSON File:** Mirnex\_Modern\_Purple.json (import via View > Themes > Browse for themes)

# Mirnex Minimal Light

## Live Preview (Power BI)

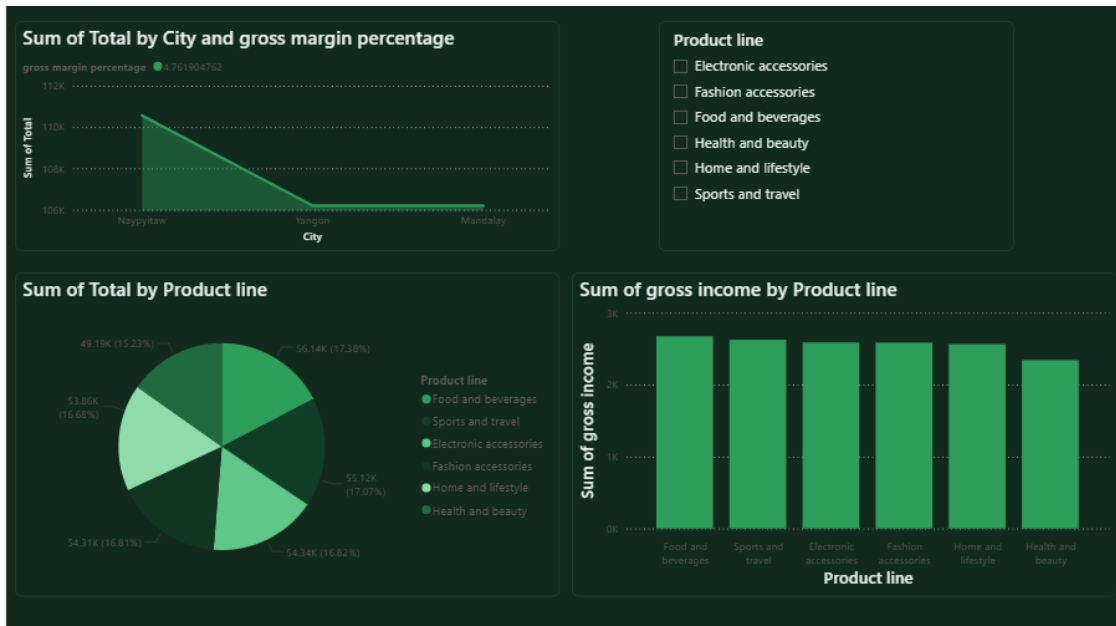

## Data Color Palette

**Best Used For:** Best for printable reports, client-facing exports, and any dashboard consumed primarily on paper/PDF where ink economy matters.

**JSON File:** Mirnex\_Minimal\_Light.json (import via View > Themes > Browse for themes)

## Live Preview (Power BI)

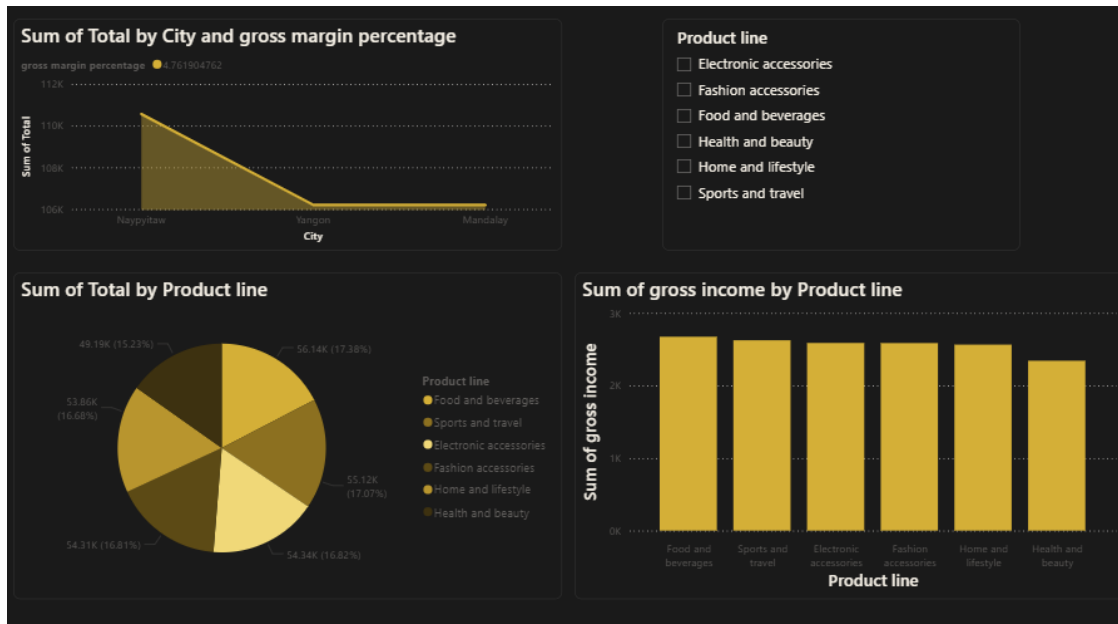

## Data Color Palette

**Best Used For:** Purpose-built for Finance and accounting dashboards — the deep green reinforces 'money/growth' association without resorting to cliché.

**JSON File:** Mirnex\_Financial\_Green.json (import via View > Themes > Browse for themes)

## Live Preview (Power BI)

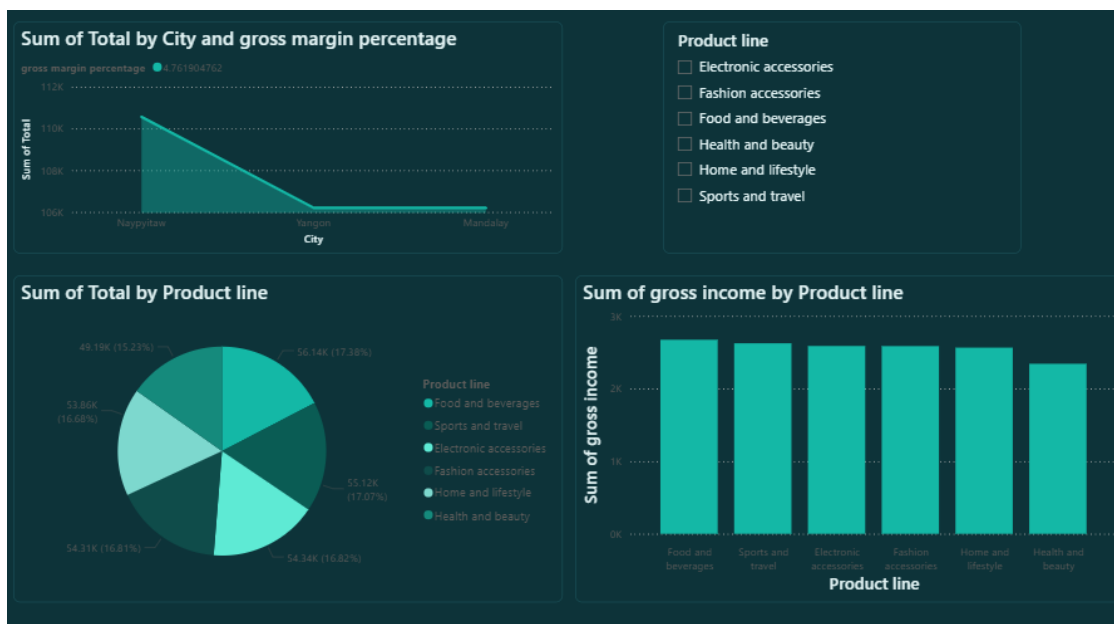

## Data Color Palette

|         |         |         |         |         |         |         |         |
|---------|---------|---------|---------|---------|---------|---------|---------|
| #D4AF37 | #8C7020 | #F0D878 | #5C4A15 | #B8952E | #3D3110 | #E8C965 | #F5F0E6 |
|---------|---------|---------|---------|---------|---------|---------|---------|

**Best Used For:** Retail luxury brands, premium real estate, and high-end hospitality dashboards where gold-on-black signals prestige.

**JSON File:** Mirnex\_Luxury\_Black.json (import via View > Themes > Browse for themes)

## Live Preview (Power BI)

## Data Color Palette

**Best Used For:** Fresh, calm palette suited to healthcare, wellness, sustainability/ESG reporting, and travel/hospitality dashboards.

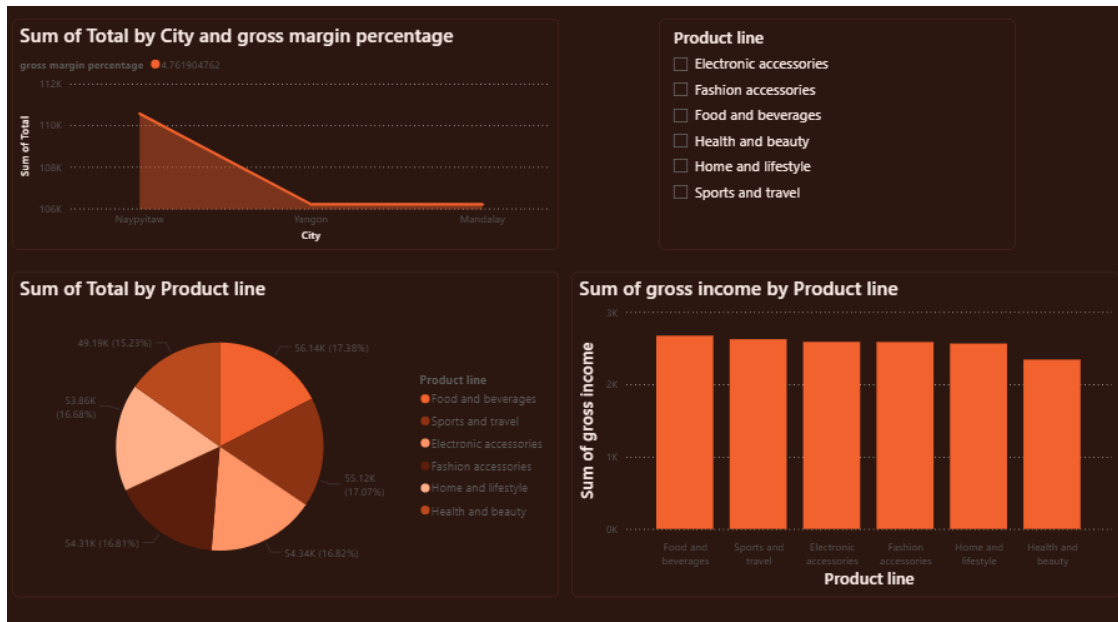

**JSON File:** Mirnex\_Ocean\_Teal.json (import via View > Themes > Browse for themes)

DARK MODE THEME

# Mirnex Sunset Orange

## Live Preview (Power BI)

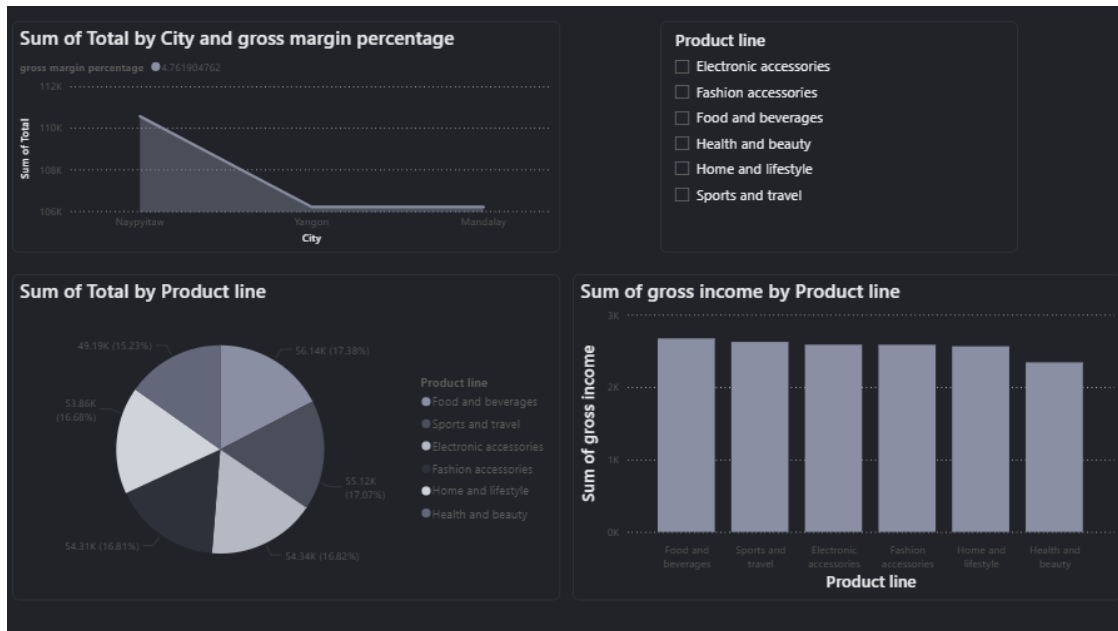

## Data Color Palette

**Best Used For:** High-energy retail, e-commerce flash-sale dashboards, and consumer marketing reports wanting warmth and urgency.

**JSON File:** Mirnex\_Sunset\_Orange.json (import via View > Themes > Browse for themes)

## Live Preview (Power BI)

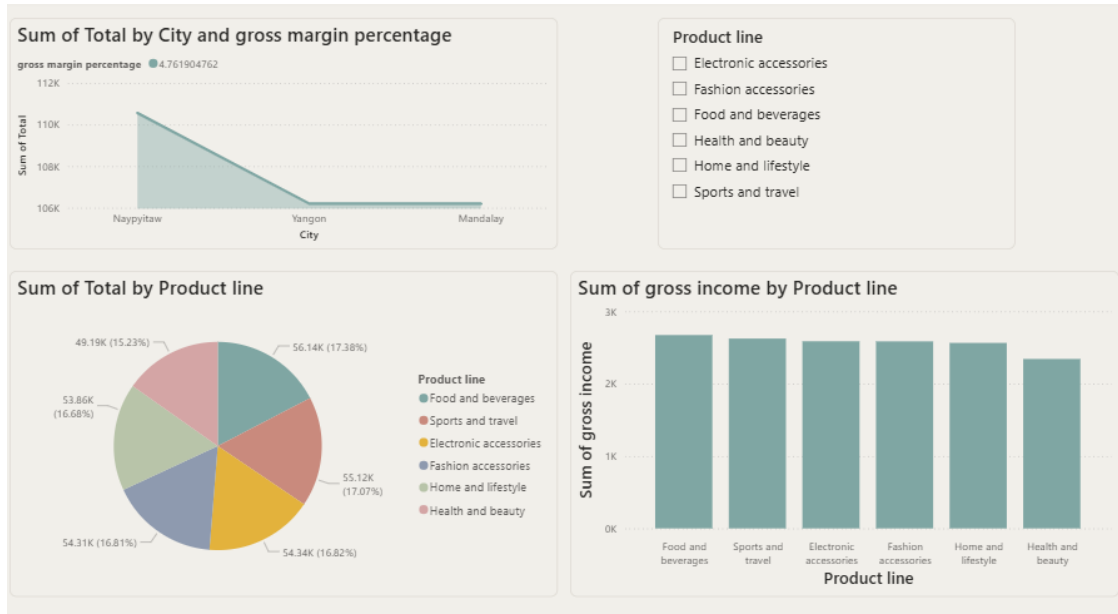

## Data Color Palette

|         |         |         |         |         |         |         |         |
|---------|---------|---------|---------|---------|---------|---------|---------|
| #8A8FA3 | #4A4E5A | #B5B9C4 | #2E313A | #D0D3DA | #63677A | #9DA1B0 | #F0F1F3 |
|---------|---------|---------|---------|---------|---------|---------|---------|

**Best Used For:** Neutral, data-dense dashboards (IT operations, engineering metrics) where color should never compete with the numbers themselves.

**JSON File:** Mirnex\_Monochrome\_Slate.json (import via View > Themes > Browse for themes)

## Live Preview (Power BI)

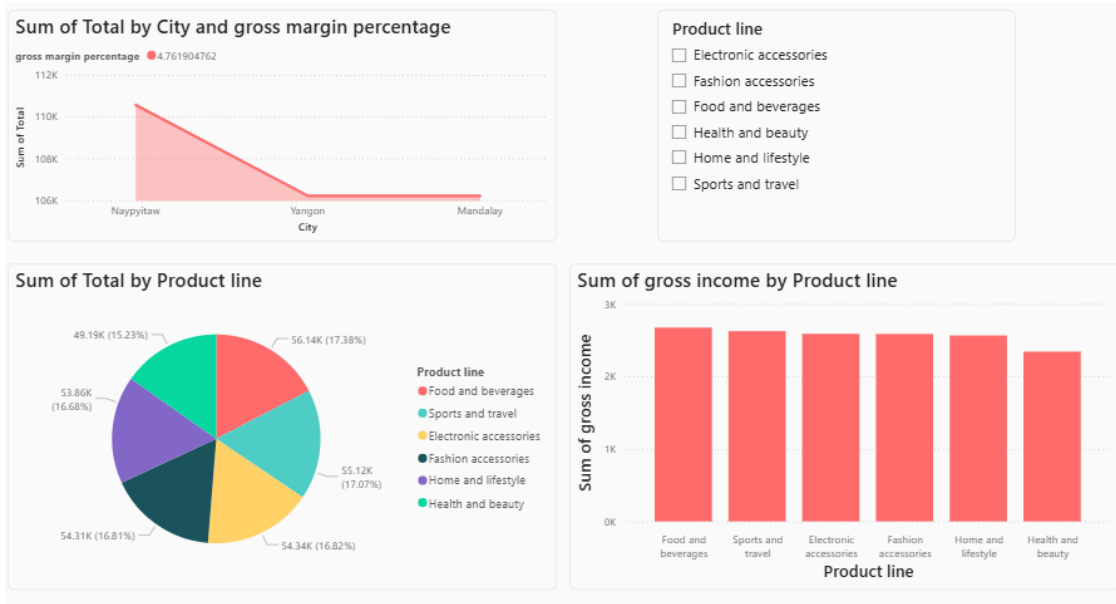

## Data Color Palette

**Best Used For:** Soft, approachable palette for HR, wellbeing, and internal culture dashboards where a warm, human tone matters more than corporate polish.

**JSON File:** Mirnex\_Nordic\_Pastel.json (import via View > Themes > Browse for themes)

## Live Preview (Power BI)

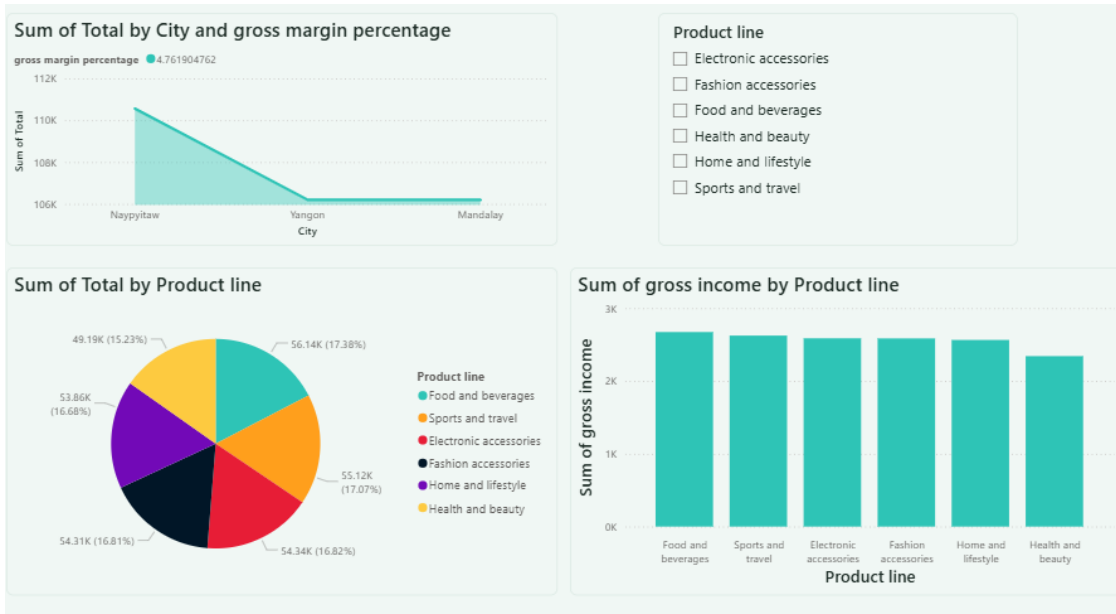

## Data Color Palette

**Best Used For:** A genuinely multi-hue palette (coral, teal, gold, navy, purple) on a clean white background — ideal when a report needs to distinguish 6-8 categories at a glance without relying on a single color family.

**JSON File:** Mirnex\_Vibrant\_Coral.json (import via View > Themes > Browse for themes)

## Live Preview (Power BI)

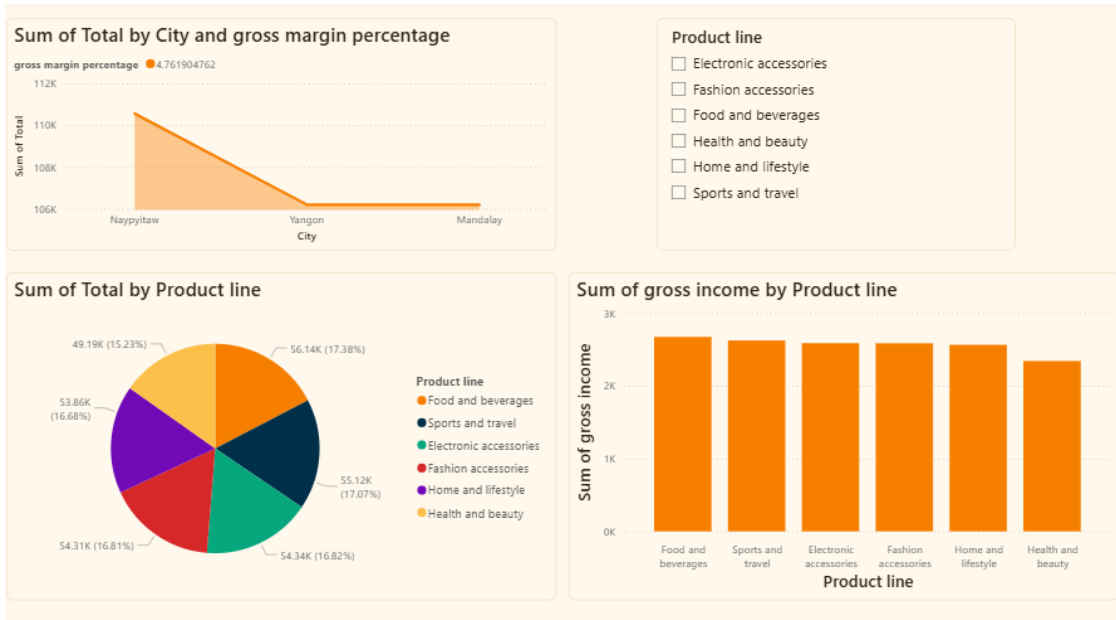

## Data Color Palette

**Best Used For:** A crisp light background with a bold, varied accent set (mint, orange, red, blue, purple) — great for product/marketing dashboards that need distinct category colors, not a monochrome gradient.

**JSON File:** Mirnex\_Fresh\_Mint.json (import via View > Themes > Browse for themes)

## Live Preview (Power BI)

## Data Color Palette

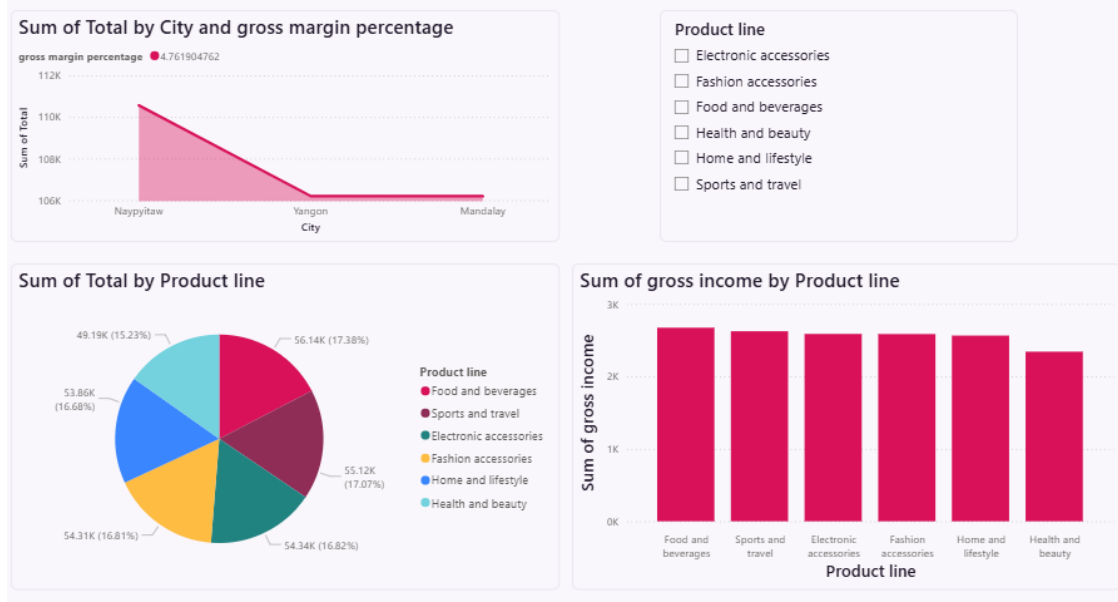

**Best Used For:** Warm cream background with a genuinely diverse citrus-and-navy palette — energetic without being dark, suited to retail and hospitality reports that still need to be read comfortably in bright office lighting.

**JSON File:** Mirnex\_Sunny\_Citrus.json (import via View > Themes > Browse for themes)

# Mirnex Berry Bright

## Live Preview (Power BI)

## Data Color Palette

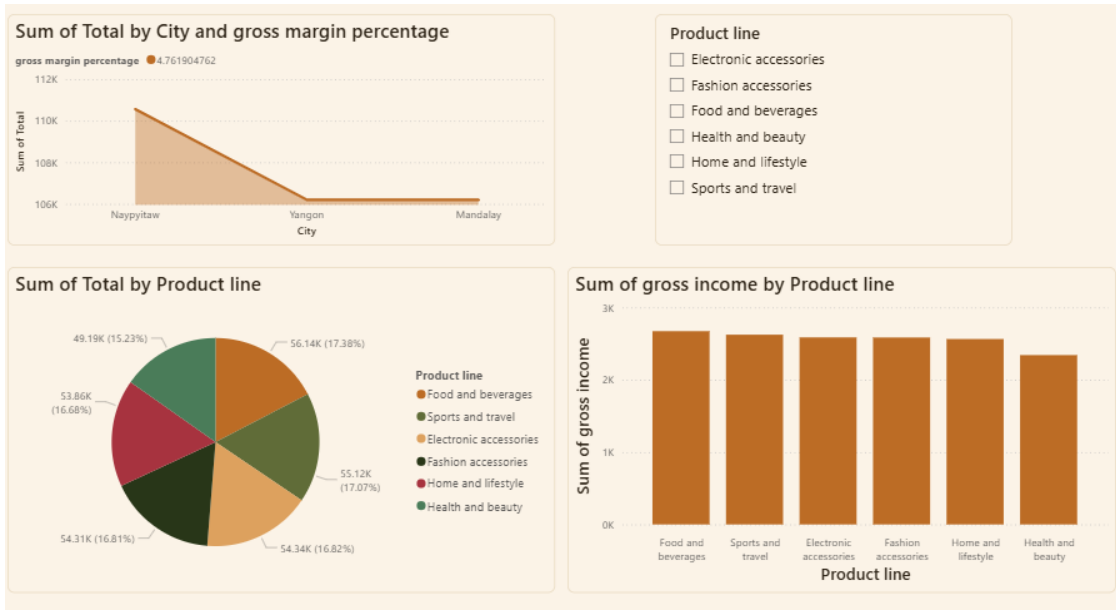

**Best Used For:** A vivid, varied berry-and-teal combination on white — works well for marketing, retail, and customer-analytics dashboards wanting a distinctly non-corporate, colorful identity.

**JSON File:** Mirnex\_Berry\_Bright.json (import via View > Themes > Browse for themes)

# Mirnex Autumn Harvest

## Live Preview (Power BI)

## Data Color Palette

**Best Used For:** An earthy but genuinely multi-tone palette (rust, olive, tan, forest green) on a warm off-white background — a strong fit for agriculture, HR, and sustainability/ESG reports wanting warmth without looking pastel or washed out.

**JSON File:** Mirnex\_Autumn\_Harvest.json (import via View > Themes > Browse for themes)
